WATERPROOF CEMENT PAINT—TAMTEX

## FOREWORD

**T**HERE are very definite advantages to be enjoyed in choosing one's home from house plans not to suit any one family, but rather to conform to general public approval. The drawings in this book which have been drawn up by a recognized designer, possess this advantage.

It often happens that individual ideas in design and arrangement of rooms are too exclusively personal to give the house a practical general appeal. This would mean that, should the owner afterwards desire to dispose of his home, he would find that its resale value had been greatly lessened because of its departure from the average taste.

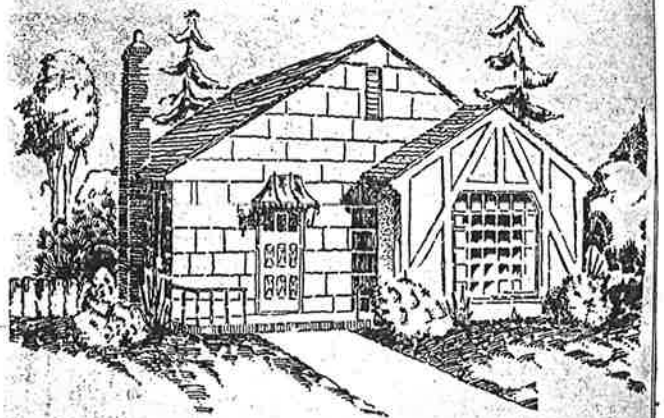

The designs shown in this book have been very carefully selected to satisfy artistically, while conforming in a practical way to mass desire. At the same time it is also possible to modify any of these plans to suit individual demands of home builders.

## Small Outlay - Pretty Home

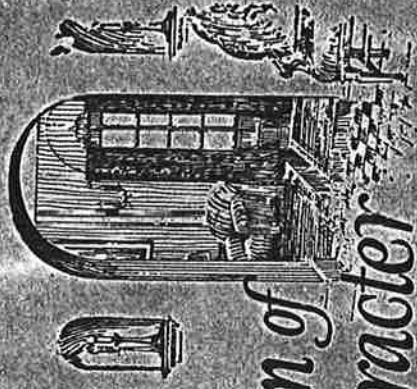

The plans for a moderate-priced dwelling offered by Harry B. Bolland, Universal Plan Service, 332 Railway Exchange building, present many advantages appealing to small families. Exterior is of shakes, stucco and half timber with ornamentation of brick-trimmed terrace, wrought iron railing and small-paned windows. Blue prints and specifications may be obtained at a reasonable fee.

FLOOR-PLAN No. 464

# The Charm of Character

NOTHING so much determines the character of your home as its walls and ceilings. Today's builders are assuring themselves a full measure of this elusive quality through the use of G.P.C. plaster wallboard which adapts itself so readily to the artistic modern interior decorative treatments.

The 1/2" thick core of hydrated gypsum plaster is an excellent insulator, a tested fire-resistor, and an efficient sound deadener.

Comes in convenient standard sizes and is nailed direct to rafters and studding. Easily cut when scored, or with an ordinary saw.

**GPC  
PLASTER LATH**

The modern, incombustible solid lath. A perfect surface for plaster coats. No wetting required.

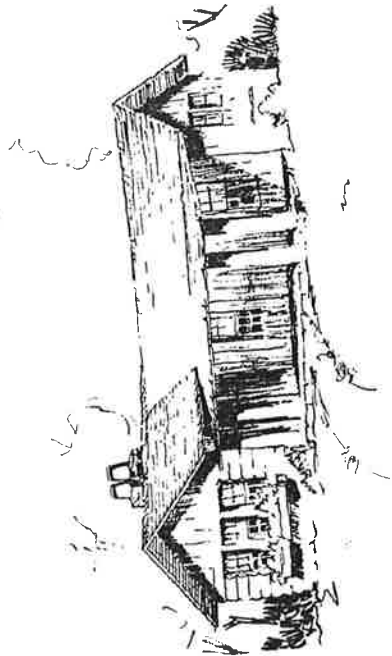

**Two Dependable Brands**
