NCARB File No. 3754 - Bradbury

Dear Mr. Bradbury:

Handwritten vertical text: 2, 1, 0, P, 4

The National Council of Architectural Registration Boards is pleased to notify you that you have been issued NCARB Certificate No. 4960 on the basis of the eligibility established by the Council Record that was prepared in your behalf and a satisfactory NCARB examination report received from the architectural registration Board in Washington. A copy of this letter will extend our appreciation to them in your behalf. Immediately following the routine recording and renewal projection procedures we will furnish to them the report copy that will remain a permanent part of your file with their Board.

Your Certificate is already in full force. As the holder of a NCARB Certificate, one of the important requirements to keep it in force is the maintenance of your registration in good standing with the Member Board noted above. You will need to notify the Council office of any change of address and if you have reason to no longer maintain registration with the Board noted above, inform us immediately before allowing it to lapse so that the necessary Certificate transfer procedure can be accomplished.

Please read carefully the enclosed Circular of Information which includes information on the Annual Renewal procedures which were adopted in 1961 to assure you that your Certificate will always be ready on short notice to use in submitting applications. Since your Certificate was issued after 15 November 1963, you will not need to renew your NCARB Certificate until you receive an official renewal notice shortly after 15 November 1964. That notice will be for the 1965 renewals.

A formal announcement for framing is being prepared for you, but it is a time consuming process requiring careful engrossing and submission of that document to our President and Secretary for their signatures. It may be a matter of months before you receive it. In the meantime, you may now use the practical advantages of your Council Certificate by writing to the Council office, informing us where you wish to attain registration and we will notify you immediately of the proper procedures.

You should be justifiably proud of your Record which has allowed you to attain your NCARB Certificate.

Sincerely yours, N.C.A.R. BOARDS [Signature] Executive Director

Dear Sir:

The following is an explanation of the change in my transcript relative to my course and degree.

At the particular time I was nearing the completion of my formal education World War II was declared. I still had several required subjects in engineering I had not taken. In order to obtain my degree at the regular time I changed from Architectural Engineering to a General course with a major in architecture and received my B.S. degree.

Certain colleges have two courses now offered - one with emphasis on engineering and one with emphasis on design. The course I took would probably be classified now as the latter.

Enclosed also is my supplementary affidavit prepared in accordance with your instructions, and my check for \$10.00.

Sincerely,

K. H. Bradbury
